Resume

My research interests include spatial hearing and its integration with other modes of perception such as vision and touch. I received the M.Sc. and Ph.D. degrees in 2013 and 2016, respectively, both from the Graduate School of Information Sciences (GSIS), Tohoku University, Sendai, Japan. From April 2017 to March 2019, I worked as an Assistant Professor at the Research Institute of Electrical Communication (RIEC), Tohoku University. From August 2019 to January 2021, I worked as Chief Audio Scientist for Silicon Integrated Co. Ltd., Wuhan, China. In August 2019, I founded Perception Research in Lima, Peru, to foster education and research on spatial acoustics in the context of multisensory perception, artificial intelligence, and immersive technology.
